The programme is subject to any variation which the organisers feel would improve the event.

Clarifications

.-Welcome and Registration.

The Hotel Hilton Buenavista is allowing us to carry out the registration procedures in their Museum. Built on the foundations of the old Palace of Buenavista and surrounded by works of art, we will meet, receive our participants' package and instructions, enjoy a glass of Spanish wine and check into our rooms.

.-Exposición de Vehículos.

The entrance to the Hilton Hotel Buenavista is a particularly appropriate location to display the vehicles. We will arrange the cars in the shape of a fan as they arrive and this will be the fixed parking space for each participant during the weekend. Additionally we will have use of the Hotel's secure subterranean car park for those who wish to use it.

The other display locations, the "Plaza de La Puebla de Montalbán", "Hostal del Cardenal" and "Plaza del Ayuntamiento de Toledo", are extraordinary locations to display the cars. Guided by the local police and watched over at all times by licensed guards, our enjoyment of this event will be substantially free from worry.

Conference and Exhibition "The evolution of The Traction"

We are fortunate to enjoy the use of one of the most desired classic cars of all time, which, thanks to its continuous evolution, is frequently underrated and often incorrectly identified. In this brief presentation, we will be handing out documentation to enable you to identify the different models, with the back-up of the models on display in the Hotel Hilton in whose premises we will give a press conference to explain the differences. Here we will be able to see and examine the most representative versions of this vehicle, the 7, 11, 15, Cabriolet and Coupe as well as special bodied versions.

Runs round Toledo

In collaboration with the municipal authorities of Toledo and in conjunction with the local police we will be able to visit locations which are not always accessible. To drive down "la Valle", day or night, to climb "Zocodover", run down the "Calle Comercio (Calle Ancha)" and park in the main square are opportunities normally denied to visitors to this historic city.

Restaurants in Toledo

The restaurants that we have chosen to celebrate 75 anniversary are of the most typical of the City. Of excessive reputation and with a chosen menu in order that the visitors could taste different local dishes of the zone, offering us each of them, the better of his kitchen.
